

# The Sanctuary Series

Frames the bathroom as  
a private retreat.

The Sanctuary Series is a curated collection of showers and faucets designed specifically for the intimate, elevated environments of boutique villas and luxury hotels.

We believe that true luxury lies in the details. With this series, we introduce a sophisticated palette of colors enhanced by PVD technology. This advanced finish offers a premium aesthetic with architectural-grade durability, allowing designers to personalize every retreat without compromising on performance.

## CLIO

### Three Function Shower System

It begins with a curve. Soft, composed, and quietly assured—the form of CLIO feels almost effortless. The overhead shower rests like a calm halo, while the hand shower extends in a slender, graceful line below.

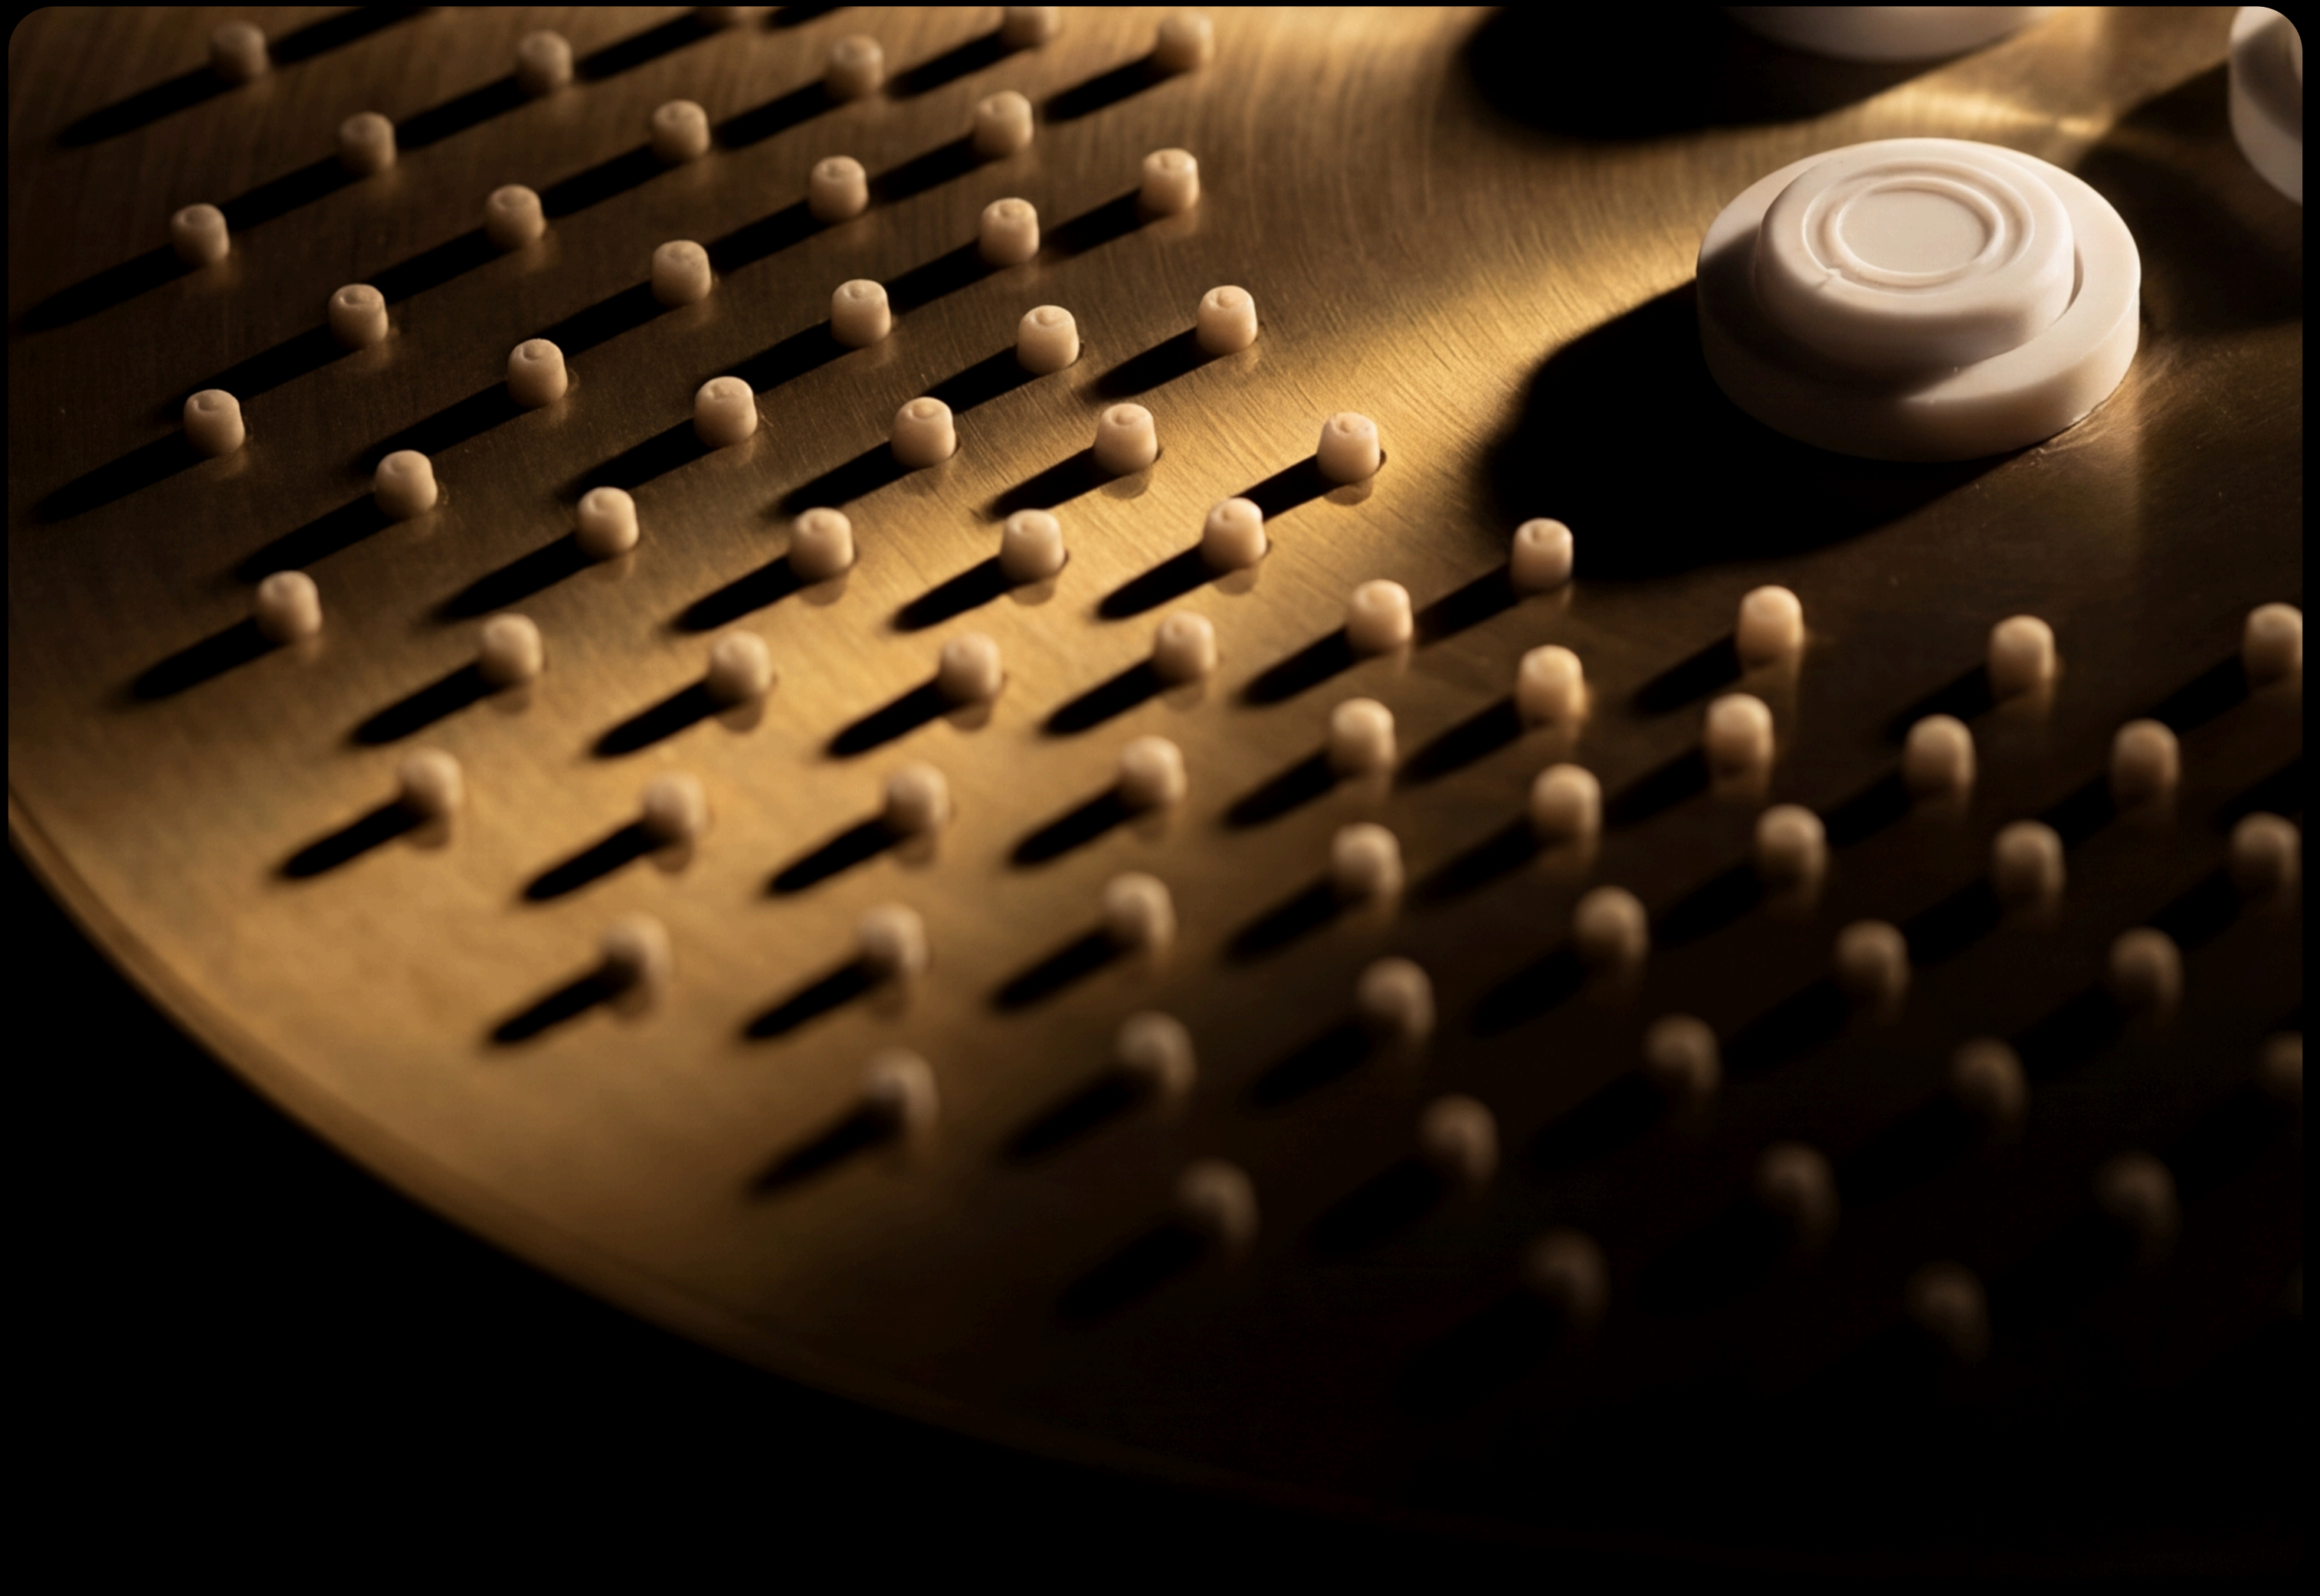

Then there is the colour. A brushed gold that glows. Warm, muted, and deeply refined, it holds the light gently, wrapping the space in a quiet sense of luxury.

The controls turn with a smooth, reassuring ease—precise, intuitive, almost instinctive. No noise, no excess. Just a simple, satisfying rhythm.

Why it endures:

- Solid brass body, handle, and shower head
- 30cm overhead cascade
- Three-function hand shower
- 35mm ceramic cartridge
- 150cm hose
- Brushed gold finish

## IRIS -

### TWO FUNCTION SHOWER SYSTEM

IRIS is defined by restraint—clean lines, softened edges, and curves that feel calm rather than decorative. The overhead shower extends with quiet precision, its form minimal yet assured, while the hand shower introduces a gentle fluidity below.

The brushed gold finish brings warmth to the experience. It carries a sense of permanence, like something chosen not for the moment, but for years to come.

At its heart are the controls—simple, intentional, and beautifully tactile. Each turn is smooth and measured, offering a quiet sense of control without distraction. There's no complexity here, only clarity.

Why it endures:

- Solid brass body and handle
- 25cm SSL304 shower head
- Two-function hand shower
- 35mm Sedal ceramic cartridge
- 150cm hose
- Brushed gold finish

## AURA -

### TWO FUNCTION THERMOSTATIC SHOWER SYSTEM

Some things in a home should simply work – without compromise, without adjustment, without thought. The Aura is one of them.

A 35mm Vernet thermostatic cartridge locks in your chosen temperature and holds it, regardless of pressure changes elsewhere in the home. Paired with a Neoperl push-button cartridge and a 32cm SSL304 stainless steel and brass shower head, every detail is purposeful.

Why it endures:

- Solid brass body and handle
- 32cm SSL304 + brass shower head
- 35mm Vernet thermostatic cartridge
- Neoperl push-button cartridge
- Three-function hand shower
- 150cm hose
- Gun metal finish

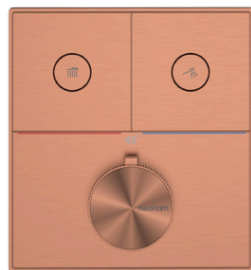

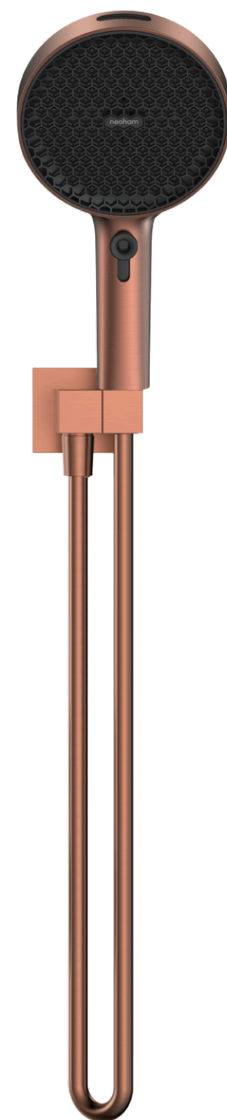

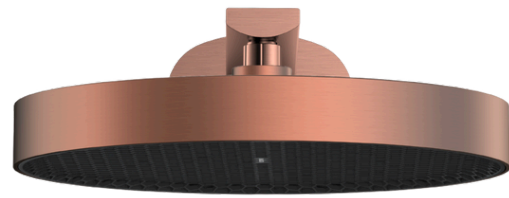

MUSE  
COLLECTION

## MUSE - TWO FUNCTION THERMOSTATIC SHOWER SYSTEM

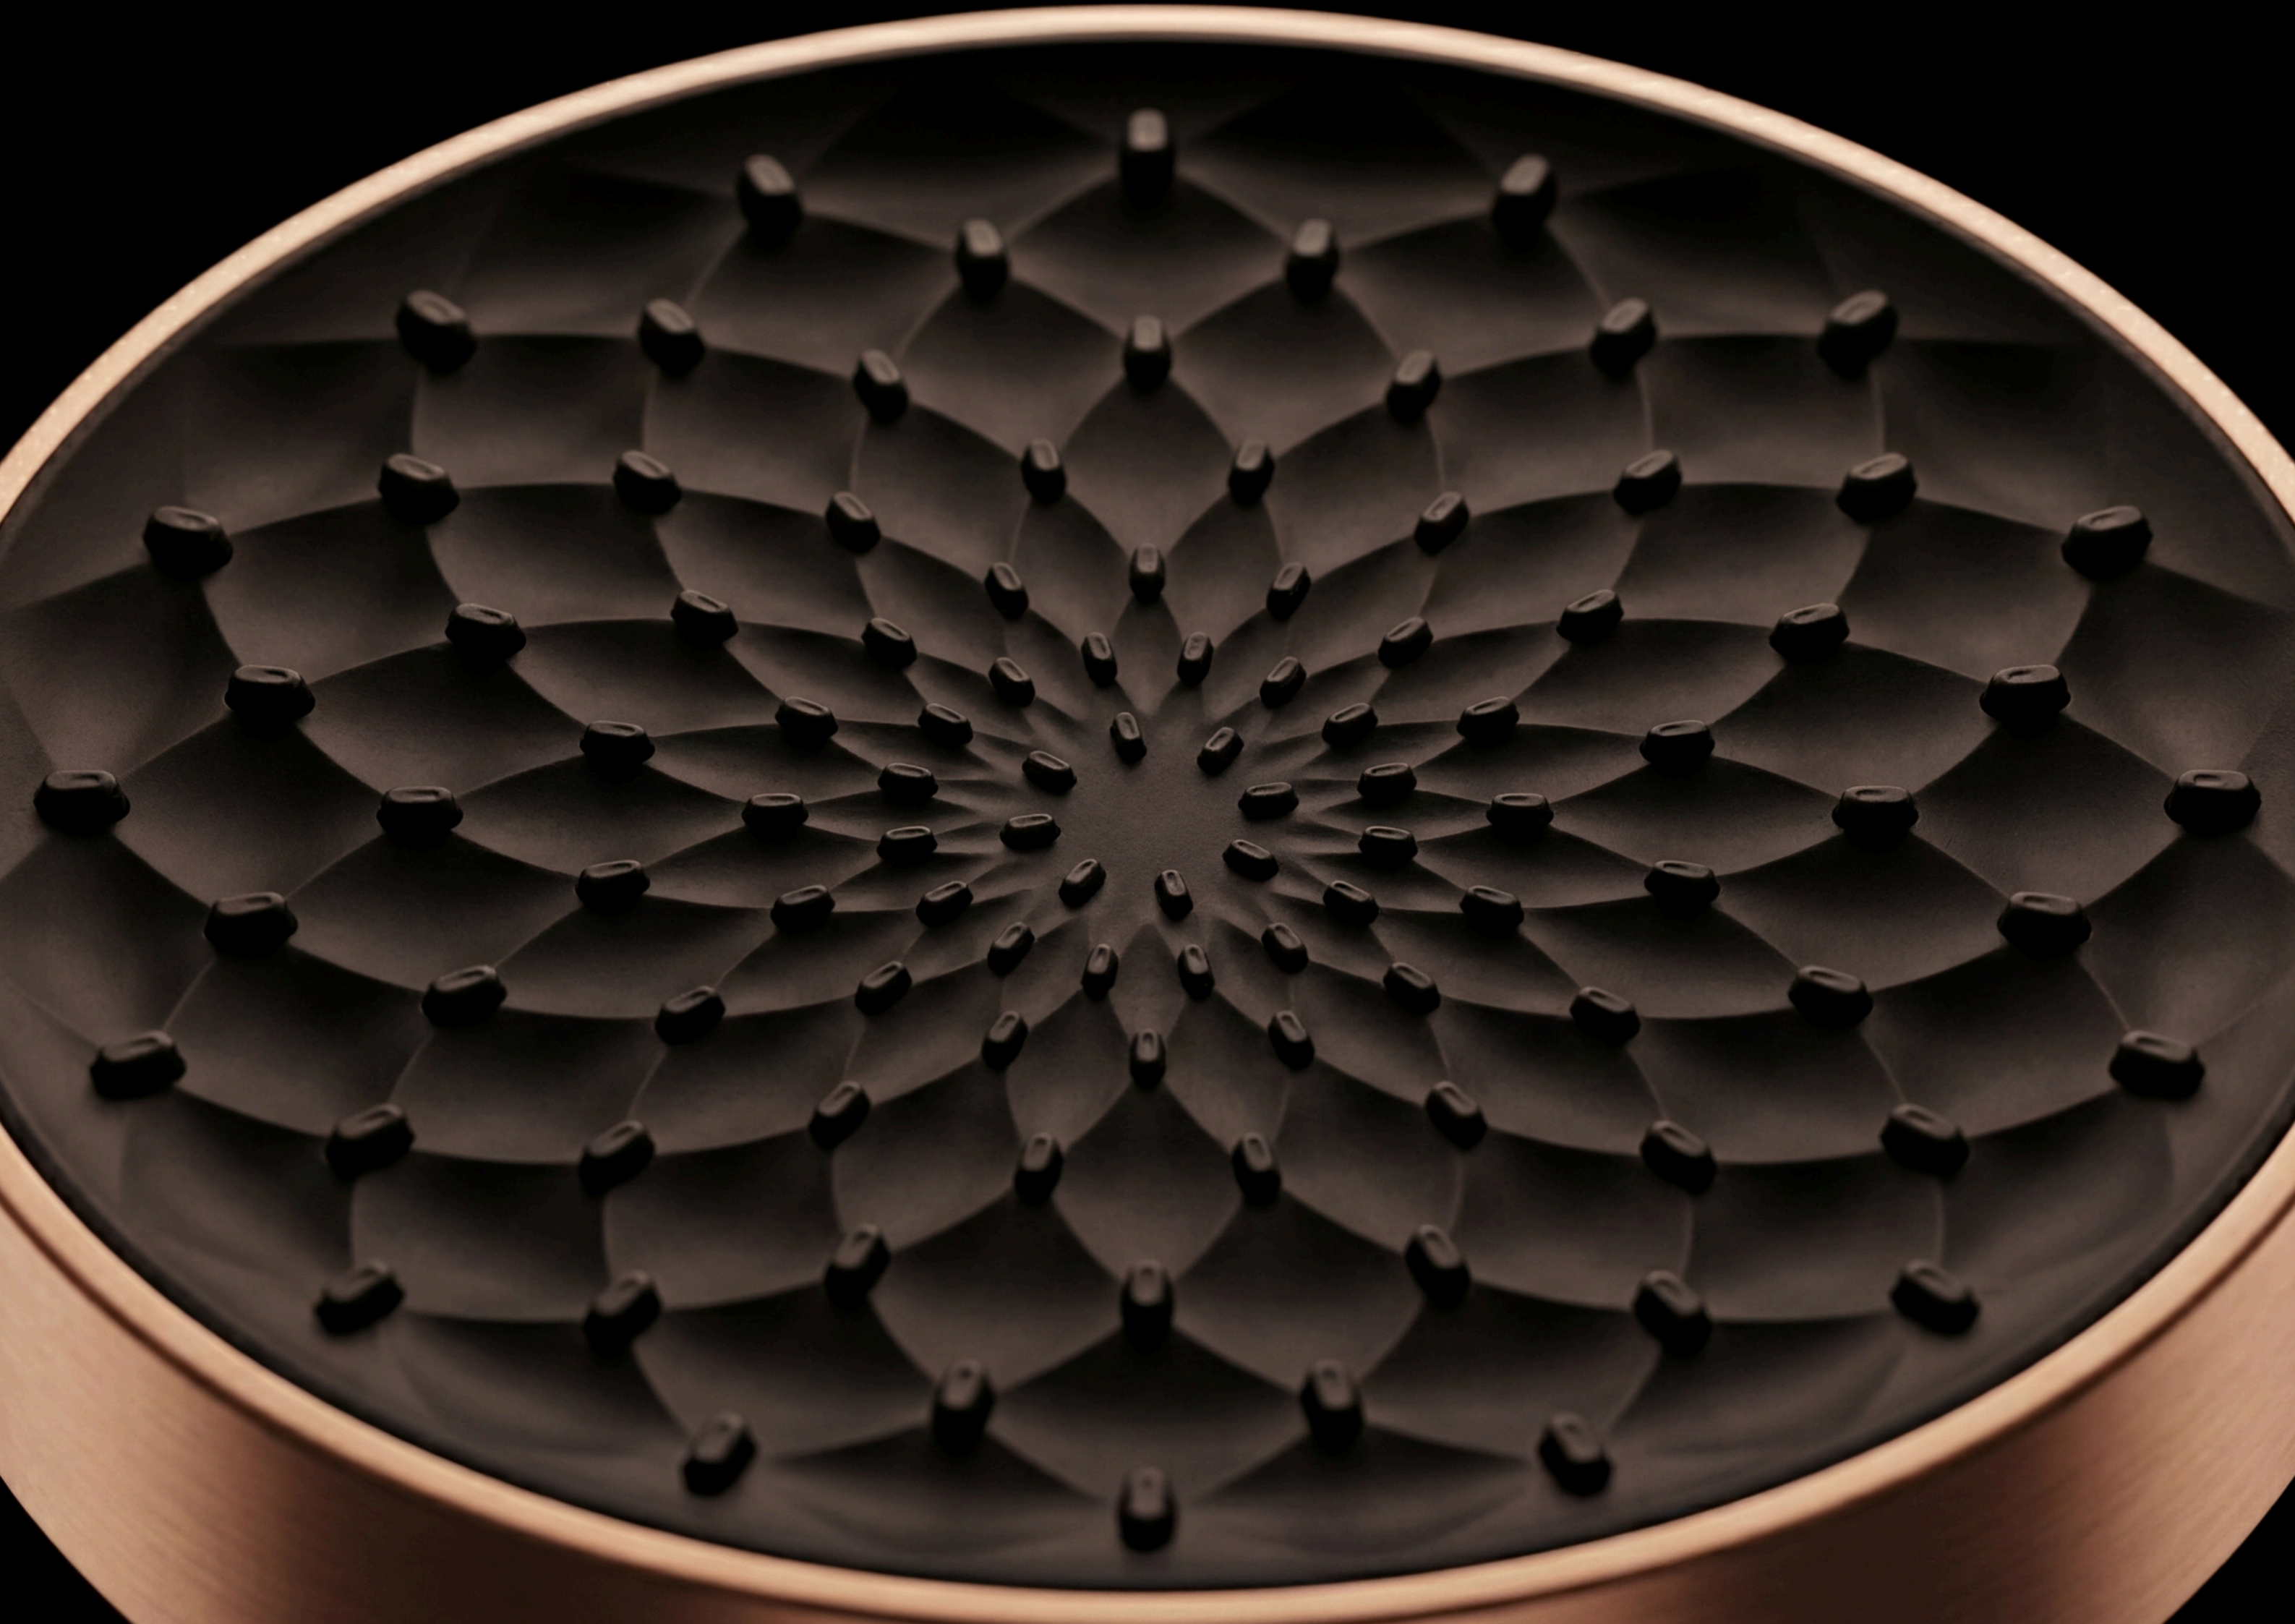

Warm in finish, precise in function. The Muse is designed for those who refuse to choose between the two.

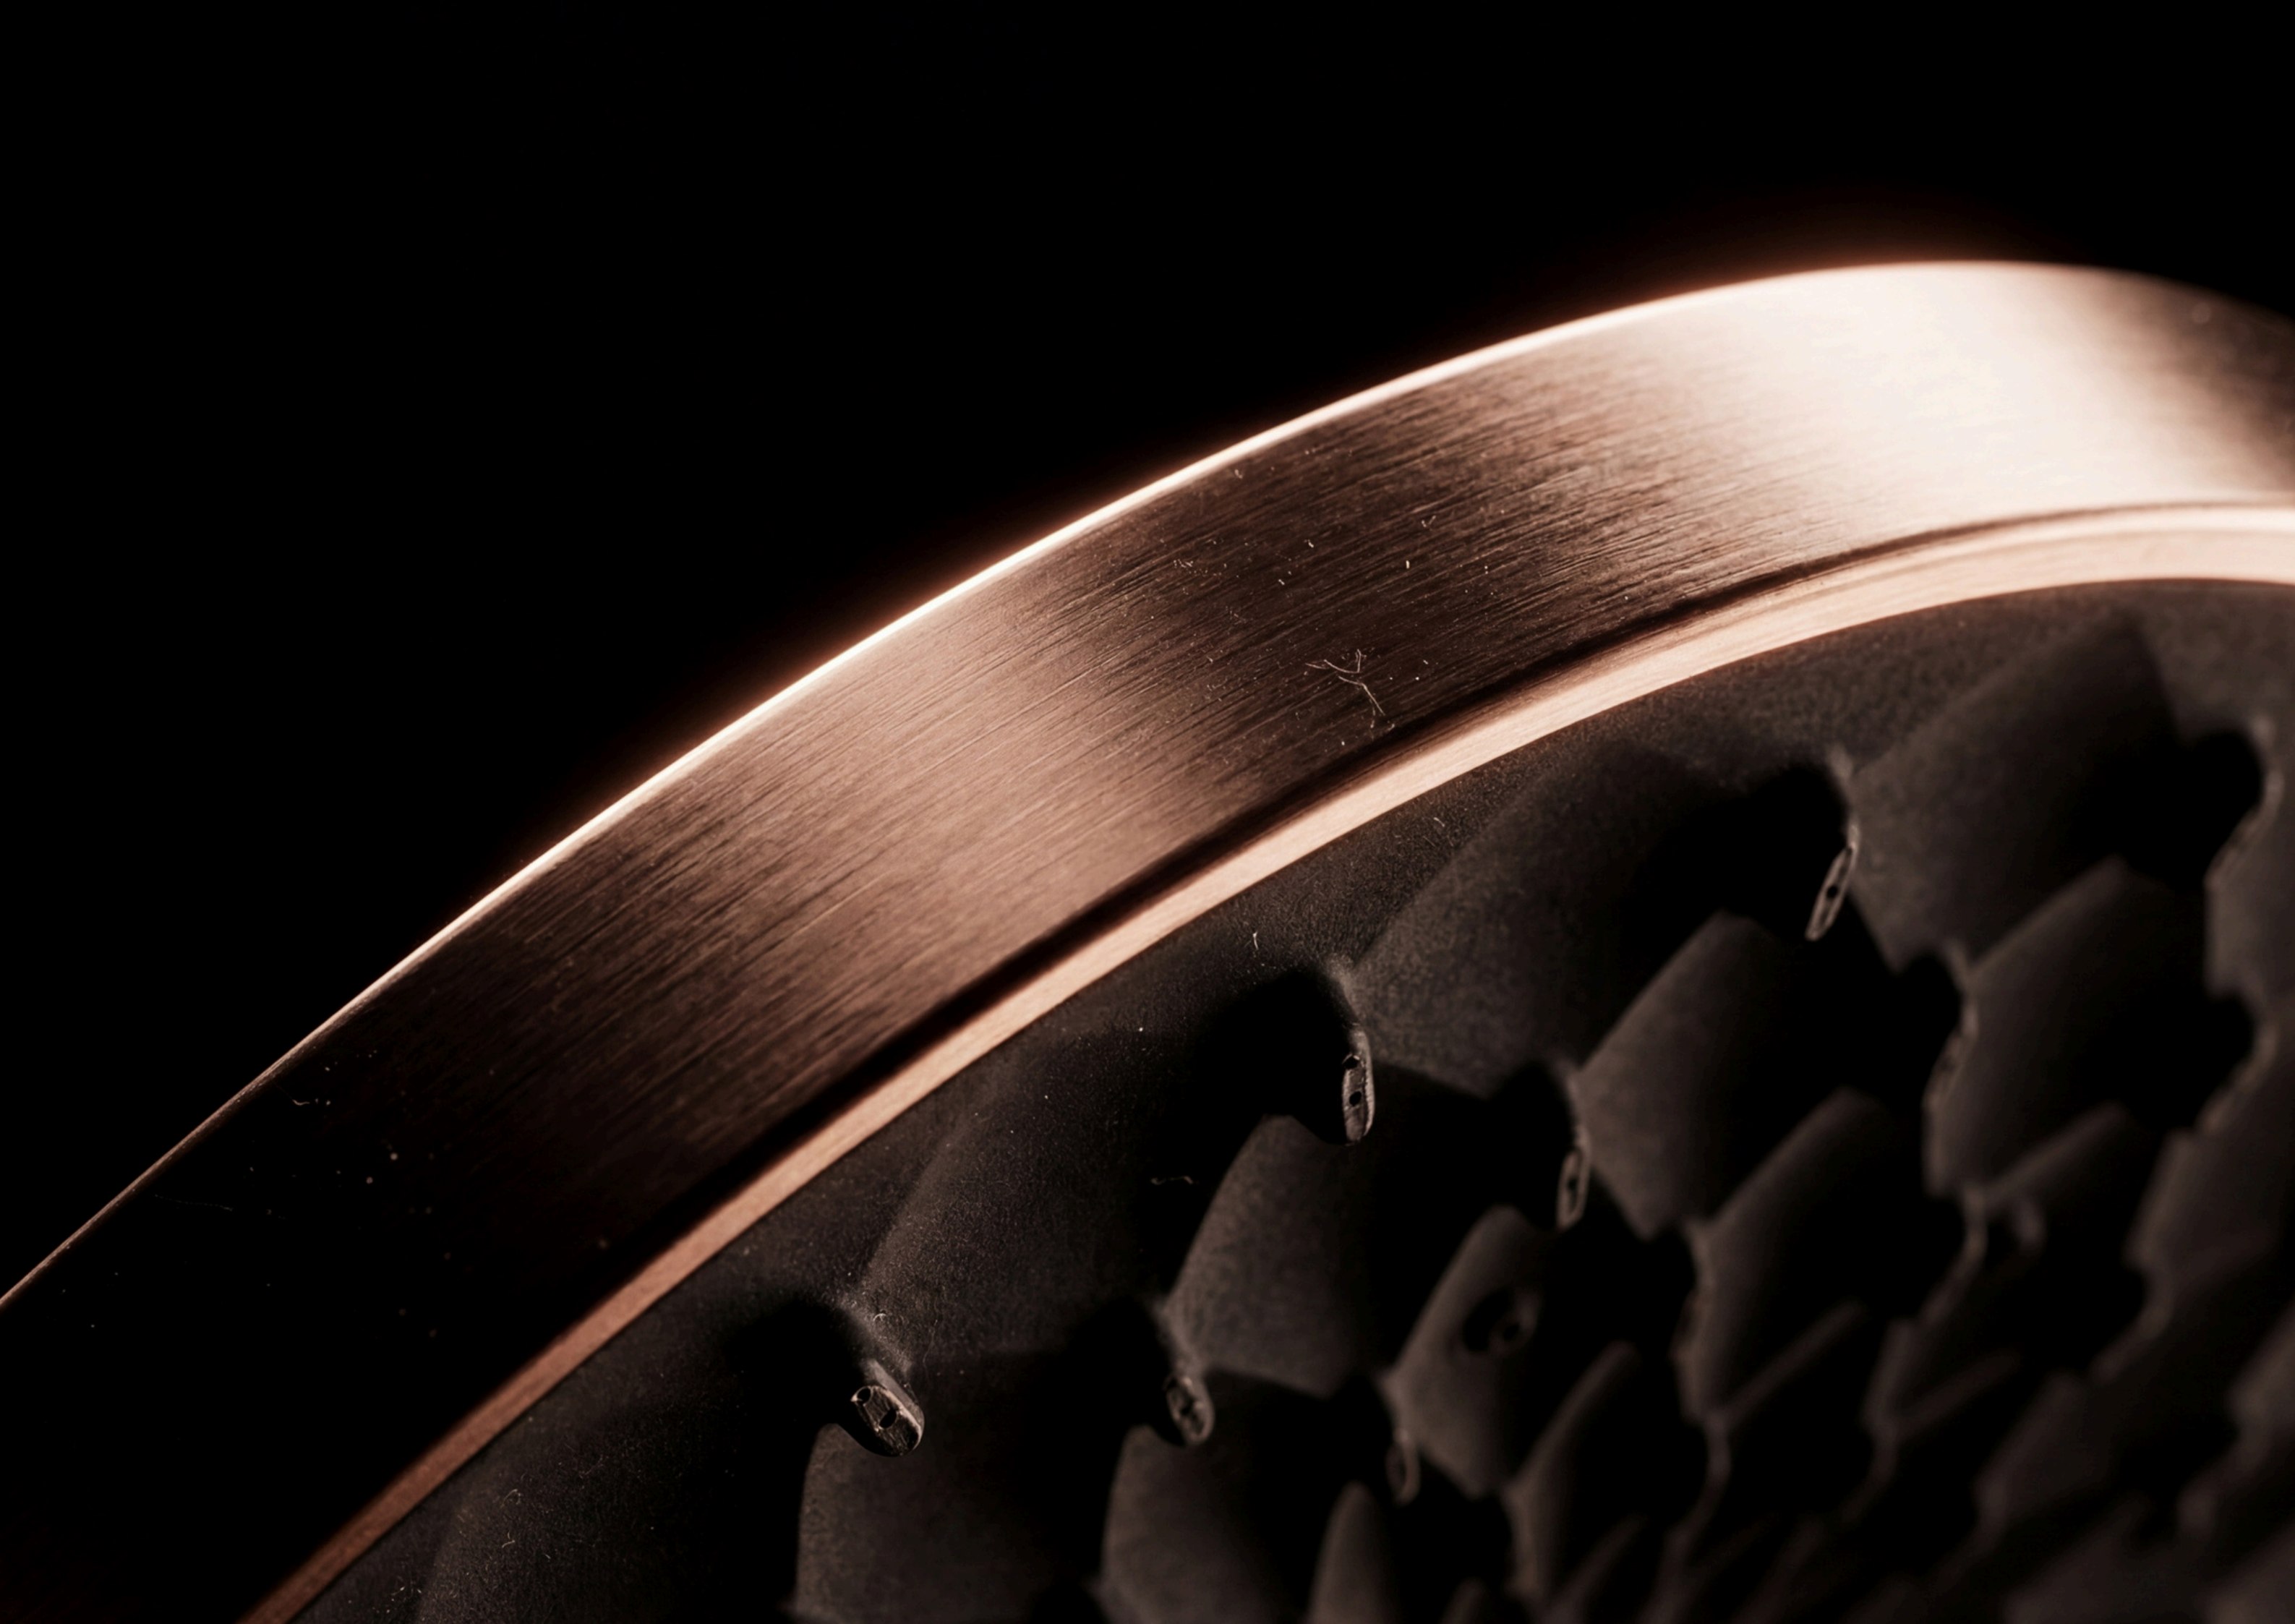

A Vernet thermostatic cartridge maintains your preferred temperature with complete consistency – unaffected by pressure changes elsewhere in the home. No adjustments, no interruptions. Just water, exactly as you set it.

A fixture that earns its place in a considered space.

Why it endures:

- Vernet thermostatic cartridge
- Neoperl push-button cartridge
- 31.9cm ABS shower head
- Solid brass body and handle
- Three-function hand shower
- Brushed rose gold finish

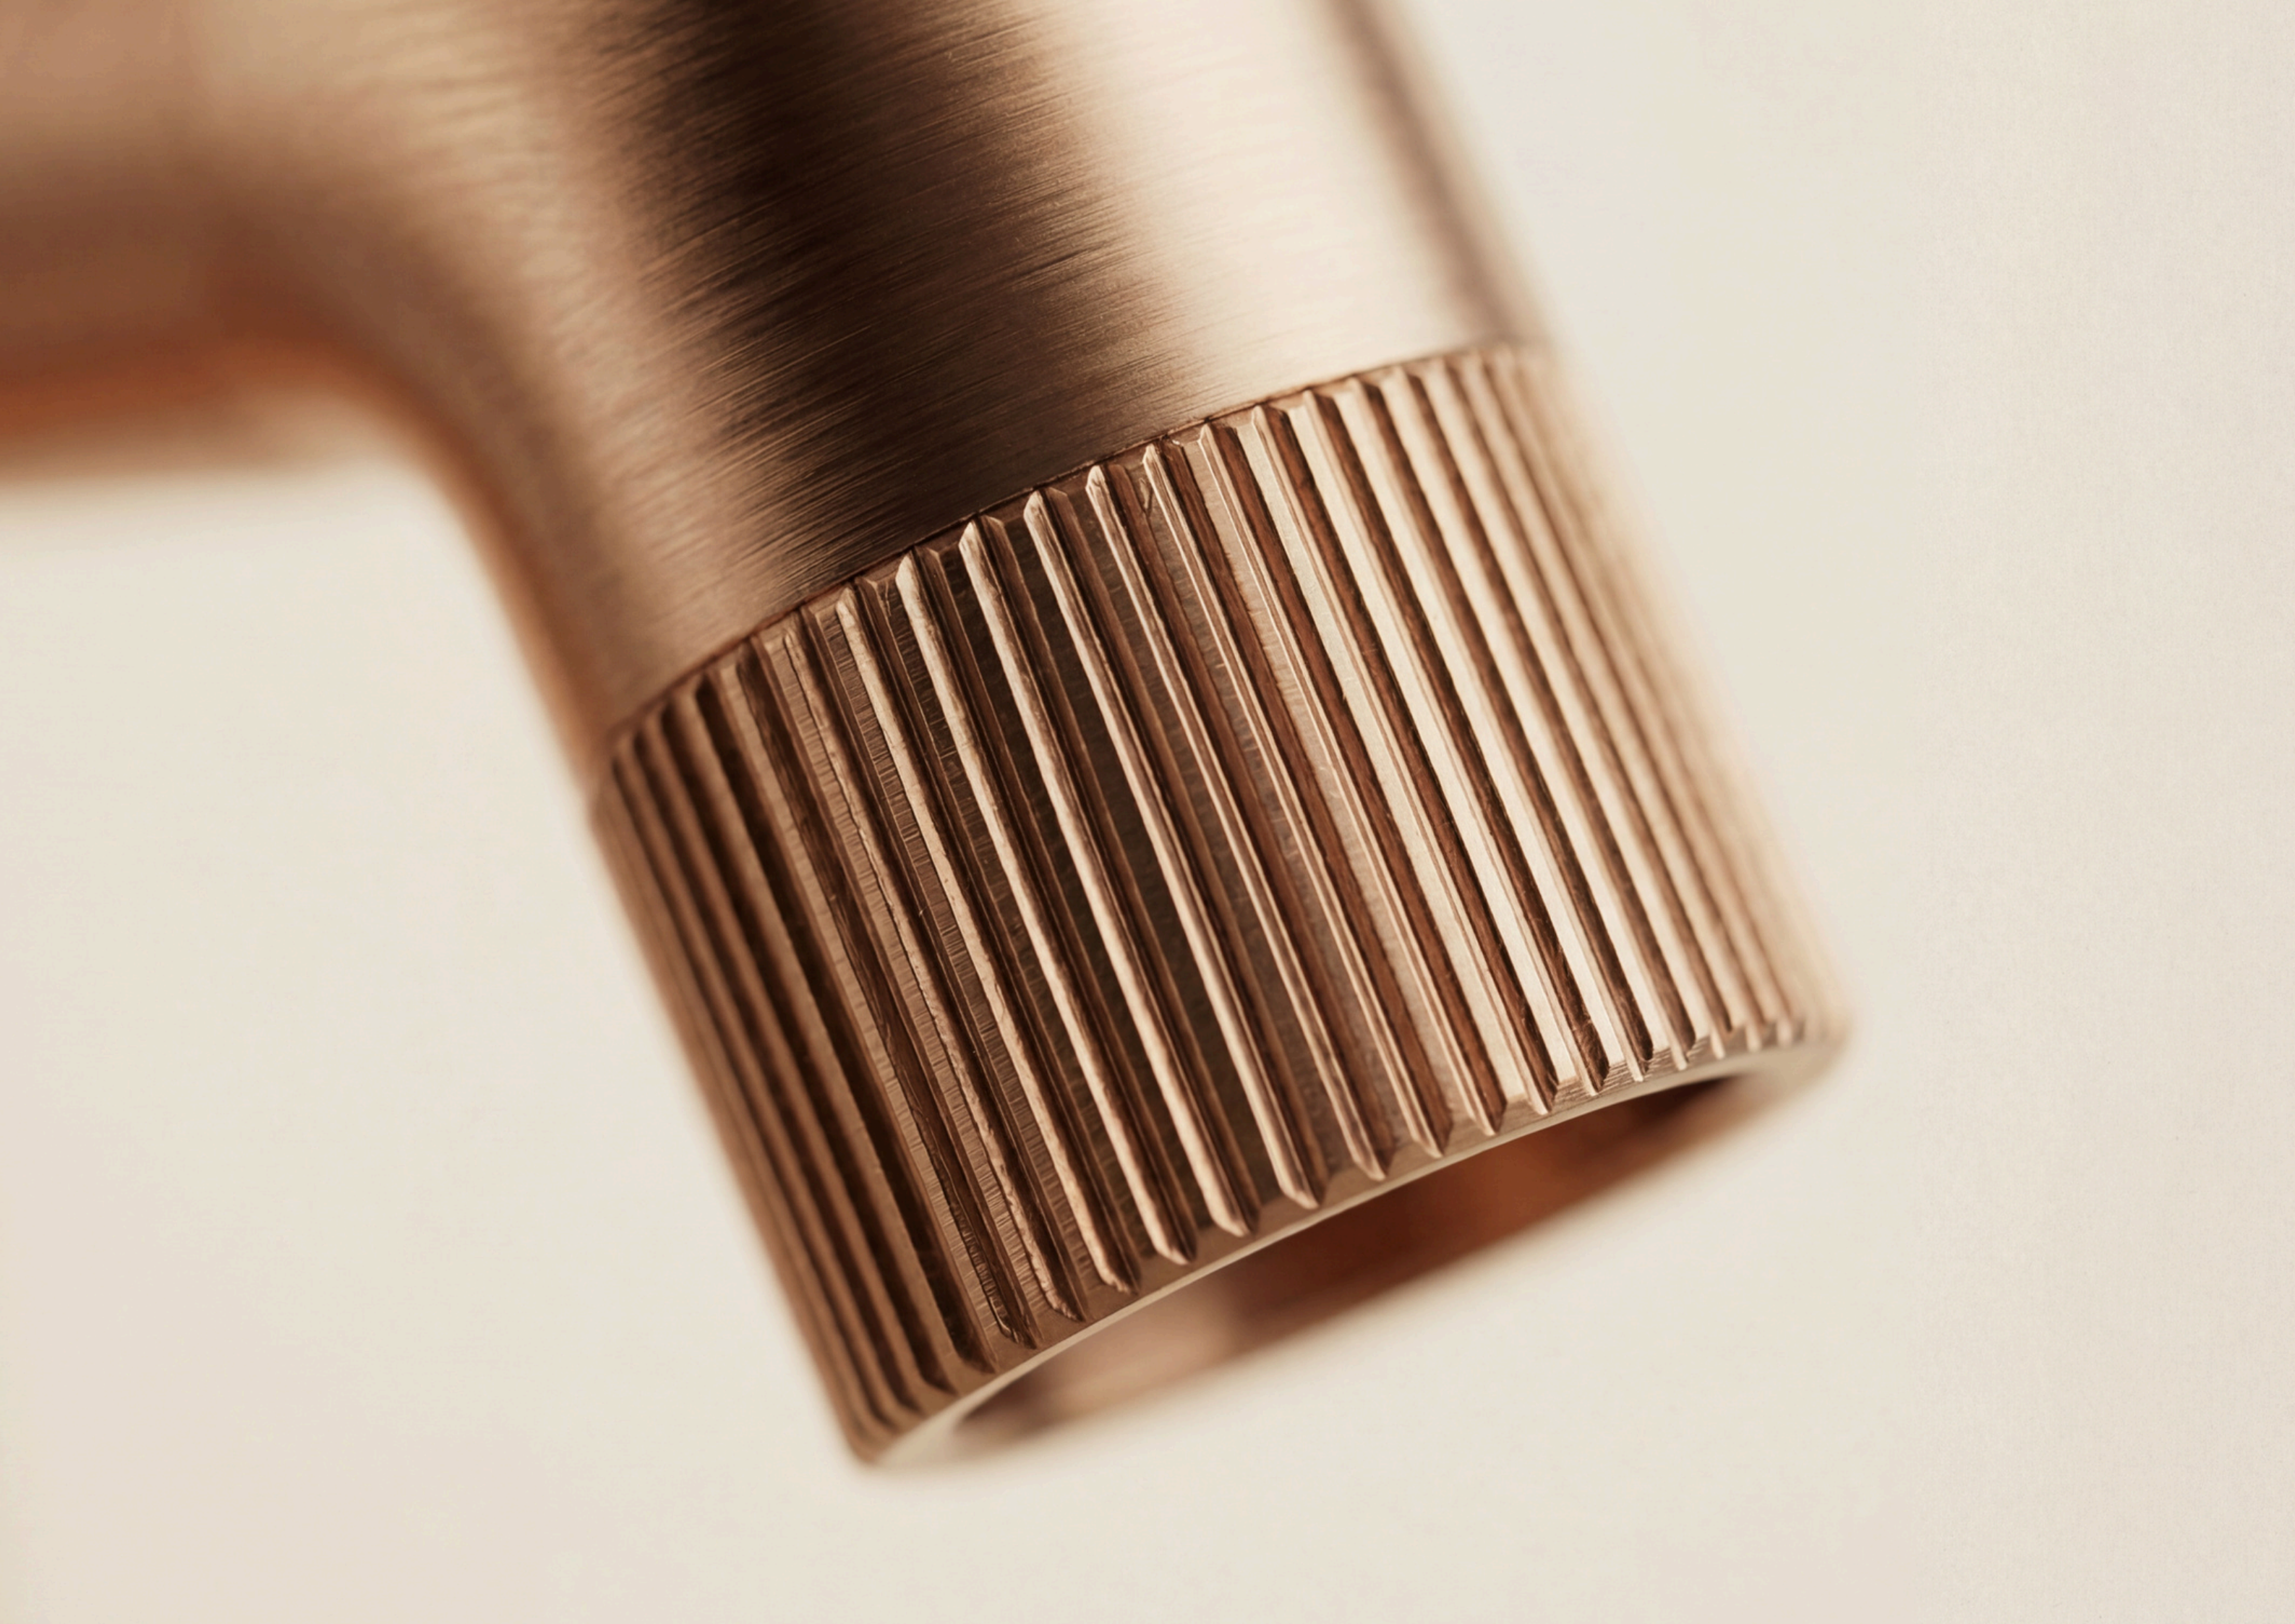

## MUSE -

BASIN MIXER BRUSHED ROSE GOLD

There is something intimate about a basin mixer – touched twice a day, every day, for years. It deserves to be beautiful. This one, dressed in PVD brushed rose gold, earns that attention effortlessly. The brass lever moves with the smooth certainty of a 26mm Sedal ceramic cartridge beneath it, precise and unhurried. A Neoperl aerator softens the flow to something almost gentle. Small in scale, considered in every detail – the kind of fixture that makes you pause, just for a moment, each time you use it.

Why it endures:

- Solid brass body and lever
- PVD brushed rose gold finish
- 26mm Sedal ceramic cartridge
- Neoperl aerator
- Stainless steel braided hoses  $\frac{1}{2}$ "

## MUSE -

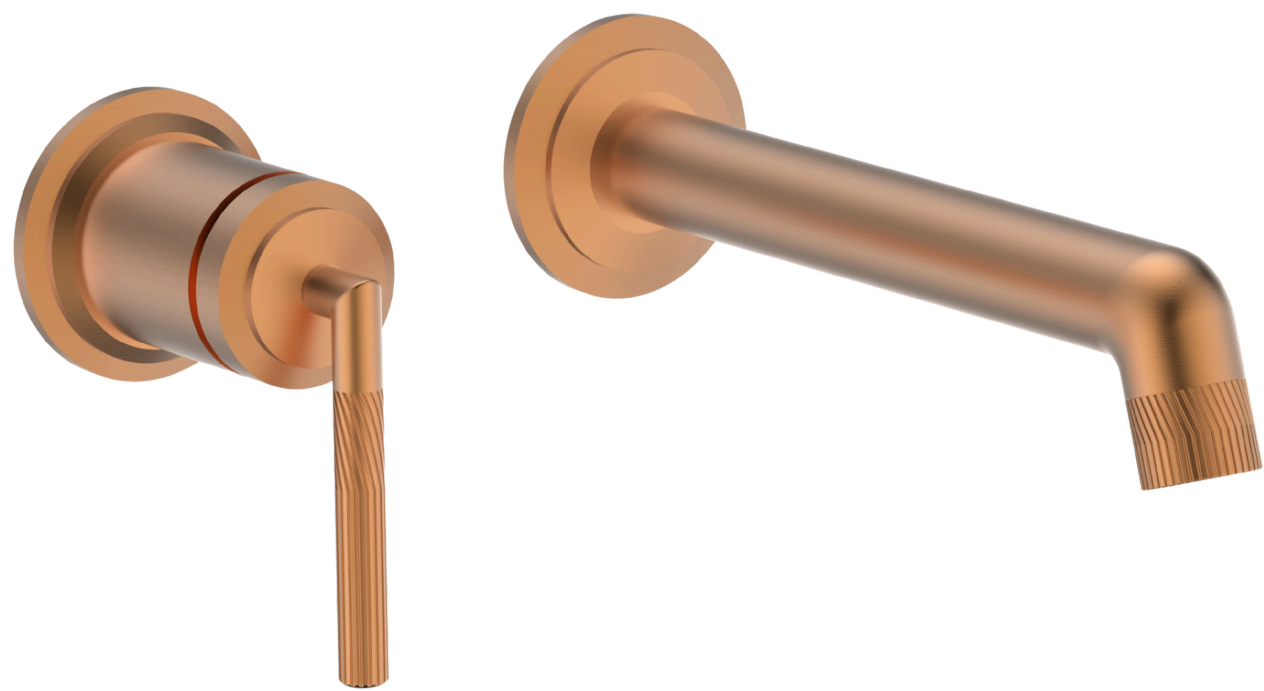

### MUSE HIGH SPOUT BASIN MIXER

Rose gold doesn't simply catch the light – it holds it, warm and unhurried, the way certain mornings refuse to be rushed. The Muse is built in that spirit. Its Vernet thermostatic cartridge finds your perfect temperature and stays there, steady as a held breath, while the 31.9cm overhead head releases water in a fall that feels less like a shower and more like surrender. Solid brass beneath, blush at the surface. Something functional, made quietly beautiful.

Why it endures:

- Vernet thermostatic cartridge
- Neoperl push-button cartridge
- 31.9cm ABS shower head
- Solid brass body and handle
- Three-function hand shower
- Brushed rose gold finish

## MUSE -

### WALL-MOUNTED 2 HOLE BASIN MIXER

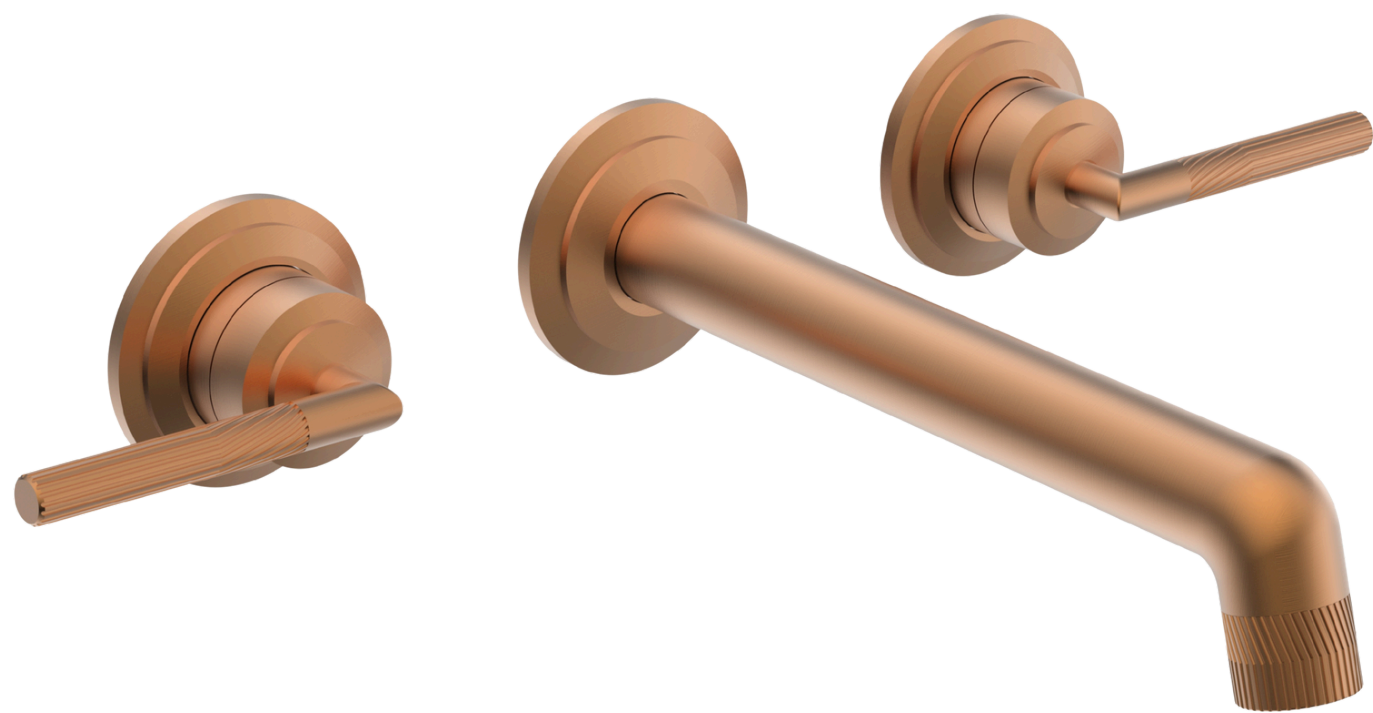

The wall gives it nothing to hide behind. Mounted clean against the surface, the Muse exists entirely in the open – and it is more than ready for that. The spout emerges with quiet confidence, its brushed rose gold finish glowing softly against tile or stone. The brass lever, slender and precise, moves through temperature and flow with the ease of a 35mm Sedal ceramic cartridge working exactly as it should. No clutter around the basin. No unnecessary presence. Just the fixture itself – spare, considered, and genuinely lovely.

Why it endures:

- Wall-mounted design
- Solid brass body and lever
- PVD brushed rose gold finish
- 35mm Sedal ceramic cartridge
- Neoperl aerator

## MUSE -

### WALL-MOUNTED 3 HOLE BASIN MIXER

Three points on the wall, perfectly balanced. The Muse spreads itself across the surface like a composition – spout and handles apart, each one deliberate. In brushed rose gold, it doesn't just function, it adorns. A  $\frac{1}{2}$ " brass ceramic cartridge and Neoperl aerator ensure the experience is as refined as the finish.

Why it endures:

- Three-hole wall-mounted design
- Solid brass body and levers
- PVD brushed rose gold finish
- $\frac{1}{2}$ " brass ceramic cartridge
- Neoperl aerator
